

To Create a Holiday Vintage Classic Look

Step 1

- Create a flawless complexion with TrueTouch® foundation and concealer of your choice.

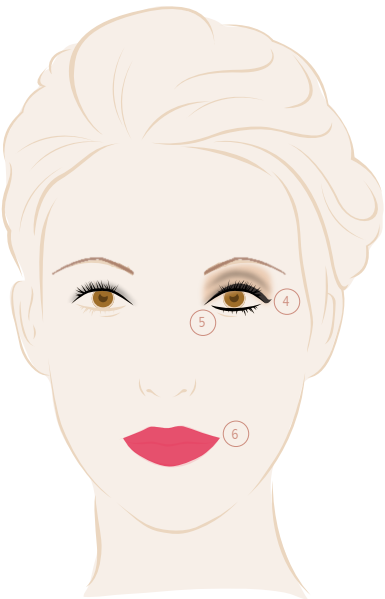

Step 2

- Create a classic eyebrow using Brunette Brow Liner. Inner brows should begin at inside corner of eye. Arch should peak softly at a 45 degree angle over the eyes. Taper out gradually to a thin but soft point. End should extend slightly beyond outer corner of the eye.

Step 3

- Begin creating that vintage classic holiday look. With a larger eyeshadow brush, start with Neutral Ground lite all over the lid to create a creamy background. Next, with a contour brush, apply Neutral Ground dark in the lid crease from the inner to outer edge of the lid. Apply a light shadow line on the lower lash line with Neutral Ground dark.

Step 4

- Create a bold dramatic eye line. Using TrueTouch® Intensifying Liquid Eyeliner, starting at the inside corner of the eye, begin running the eyeliner brush to create a thin delicate line, then as you draw it across the lid, increase the width. The line should be the thickest at the outside corner of the eye, ending in a slightly upturned point, just outside the outer eye. Sweep the color again if needed until you get the desired coverage.

Before

After

Step 5

- Apply mascara to upper lashes only. Adding to lower lashes creates a more dramatic effect.

Step 6

- Create a more bold classic lip by lining the lips first, then applying Scarlet Lipstick. This rich color is so romantic for the holidays and wonderful for evening.

Professional Tip: Apply one coat of lipstick, blot with tissue, then apply second coat. Finish with a slight dusting of Translucent Loose Powder to set and mattify the lips. Very classic!
